

## How to see SNPs and Indels

Genome Browser URL: [http://ghost.zool.kyoto-u.ac.jp/default\\_ht.html](http://ghost.zool.kyoto-u.ac.jp/default_ht.html)

Use this '+' button to see nucleotide sequences

Tick SNPs/Indels tracks you want to see

SNPs/Indels  
Click this to see the detail

This means:  
 (1) This position in the reference genome is 'C'  
 (2) This position in some animals is 'A'

Number of reads indicating that this position is 'C' is 1179 (=615+564; counts for forward and reverse reads)  
 Number of reads indicating this position is 'A' is 202 (=118+84)

**Primary Data**

Type	SNV [ View Sequence ]
Score	285
Description	SNV C -> A
Position	Chr1:7788526..7788526
Length	1 bp

**Attributes**

AC	7
AN	44
BQB	0.956522
DP	1416 *Mouse over the yellow b
DP4	615 564 118 84
HOB	Number of high-quality ref-forward , ref-revers
ICB	1
MQ	33
MQOF	0
MQB	0.978261
